NATIONAL CONVENTION

Network of *Possibilities*

AT&T Product and Rate Guide
Democratic National Convention
Charlotte, North Carolina

September 3-6, 2012

Welcome to the “Queen City” of Charlotte! AT&T is excited to be a part of the 2012 Democratic National Convention. Together we share in this historic moment that will showcase the Democratic Party and the city of Charlotte. We look forward to delivering all of your communications needs.

In 1876, Alexander Graham Bell invented the telephone. That historic invention was the foundation of the company that would become AT&T—a brand that has become synonymous with the best, most reliable telecommunications service in the world. For more than a century, AT&T has consistently provided innovative, reliable, high-quality products and services with excellent customer care. Today, our mission is to connect people with their world, everywhere they live and work, and do it better than anyone else. We're fulfilling this vision by creating new solutions for consumers and businesses and by driving innovation in the communications and entertainment industry.

This Rate Guide content is also available on the web at <http://wip.site.att.com/dnc/> and via the 2D Barcode below.

The AT&T Product and Rate Guide highlights the diverse telecommunication services AT&T offers for the 2012 Democratic National Convention. Our services range from broadcast video to traditional voice and data connections. The table of contents will help you navigate the information. There are several options to order your service, including an online portal to make your experience fast and easy.

AT&T looks forward to working with you and helping create a “wow” experience for you for this historic event in Charlotte. If you have any questions about any of the services, please contact us by email at **DNC2012@rdsmail.ims.att.com** or phone **1-855-ATT-4DNC (1-855-288-4362.)**

Best regards,

How to Order

AT&T representatives are dedicated to providing unsurpassed customer service and first-class business products. All Convention communication services and equipment described in this AT&T Media Product and Rate Guide (“Convention Services”) may be ordered using the following methods: online and telephone. Standard AT&T ordering processes do not apply.

Online

To order your services online, please visit AT&T’s web portal at <http://att.com/dnc2012> . **Pre-registration is required in order to receive a user name and password.**

1. Click on “DNCC-Media Customer Profile Request” and request your unique customer profile via email. Please provide your name, preferred email, and contact number.
2. Once submitted, you will be sent your username and password via email within 24-48 hours.
3. Log back into the AT&T web portal - <http://att.com/dnc2012> and select “Request Management,” followed by “Add New Request” to place your order(s.)
4. After receiving your order, an AT&T representative will contact you to confirm the details of your service request, and collect payment information.

Telephone

To order via telephone, please dial **1-855-ATT-4DNC (1-855-288-4362)** during normal business hours (8:30 AM – 5:30 PM ET.) An AT&T representative will be ready to assist you with placing your order.

Hours of Operation

Customers can submit orders online at any time and AT&T will respond during normal business hours (8:30 AM – 5:30 PM ET.)

Service Availability

AT&T requires all orders for Convention services must be received by Wednesday, August 1st, 2012. Orders received after that date are subject to expedite charges. All orders are subject to availability.

An order is considered confirmed once AT&T has received all necessary information and payment has been processed.

Important Order Dates

- First day to submit order(s) – Wednesday, February 1, 2012
- Convention services will not be available prior to – Thursday, August 23, 2012
- Last day to submit order(s) without being subject to expedite charges – Wednesday, August 1, 2012
- Disconnection of all Convention services – Friday, September 7, 2012

Convention services are limited to the DNC Complex and locations in that immediate area. Special construction charges may apply for all Convention services ordered for installation outside the assigned “DNC Complex.” The “DNC Complex” is defined as the space provided by the DNCC (Democratic National Convention Committee) in the Time Warner Cable Arena, the adjacent parking lots, and the Charlotte Convention Center. Orders outside of the “DNC Complex” are subject to availability.

Billing and Payment

Payment Options

AT&T provides the following options for payments: credit cards, debit cards and electronic fund transfers.

AT&T accepts the following credit cards and debit cards for payment:

- Visa
- MasterCard
- American Express

AT&T will charge your credit card or debit card when your order is confirmed. You will be contacted by an AT&T Representative to review your order and provide your preferred payment information.

Taxes, Fees and Other Charges

Unless stated otherwise for specific Convention services/products, rates do not include applicable taxes, regulatory charges and fees, or other charges and fees, including, but not restricted to, fees for 911 service, universal service charges, and fees to cover certain costs such as number portability. Upon your request, your AT&T Representative can provide an estimate of the applicable taxes. The customer shall be required to pay all taxes, fees, and charges in addition to all other amounts. A refundable deposit of \$500.00 will apply for usage-based long distance, international long distance, and toll-free services.

Concierge Service, Repair, and Support Information

Concierge Service

An AT&T Concierge Service will be available August 23 through September 7 to assist customers with the installation of Convention services, repair issues, and general questions.

Repair Information

Any repair issues should be reported immediately to AT&T at **1-855-ATT-4DNC (1-855-288-4362.)**

Support Information

If you have any questions about any of the services, please contact us by email at **DNC2012@rdsml.ims.att.com** or phone **1-855-ATT-4DNC (1-855-288-4362.)** An AT&T representative will be available during normal business hours to assist (8:30 AM – 5:30 PM ET.)

Important Information and Disclosures

By ordering, accessing or using any service listed or described in this Rate Guide, you acknowledge, accept and agree to the terms and conditions in the AT&T Business Service Agreement (“BSA”), excluding Section 11.i, which BSA may be found at <http://www.corp.att.com/agreement/>, and, as may be changed by AT&T from time to time, the applicable provisions in the AT&T tariffs, Guidebooks and Service Guides (collectively “Service Publications”) which may be found at www.att.com/servicepublications and AT&T’s Acceptable Use Policy, which may be found at www.att.com/aup. Due to the limited duration of the Convention services, the service levels and termination charges set forth in the Service Publications shall not apply.

- The “Convention rates” referenced in the AT&T Media Product and Rate Guide apply only to AT&T Convention services provided to the “DNC Complex,” which includes the Time Warner Cable Arena, the parking lots around the Arena, and the Charlotte Convention Center between Thursday, August 23, 2012 and Friday, September 7, 2012 in conjunction with the 2012 Democratic National Convention. The rates listed include any related installation, repair services, service interface charges, and inside wiring. The “Convention rate” is a flat rate except where indicated otherwise, and applies to Convention services provided between Thursday, August 23, 2012 and Friday, September 7, 2012, and will not be prorated. Please refer to the specific product page(s) for the applicable Convention rates. There may be additional charges that apply should special construction be required and/or Professional Services be requested by the customer. To learn more about Professional Services, please see the “Professional Services” section for additional details. Payment will be required in advance.
- Services that are moved, changed, or canceled prior to or during the Convention are subject to a “Move, Change and Cancel Fee.” A Cancel fee is applied when services are cancelled prior to installation. Move requests that are mandated by the DNCC will not be subject to a Move Fee. Please speak with an authorized AT&T representative should you have additional questions.

Please see the below definitions of a Move and a Change.

- Move: Moving a Convention service from one location to another
- Change: Changing a feature to a different feature
- The Convention rates may be subject to regulatory approvals or filings and may not be effective until such approvals are obtained or filings are made.

- The Convention rates are not eligible for additional discounts or promotions.
- AT&T reserves the right to change the ordering, provisioning and repair processes described in this Rate Guide.
- An approved credit status is required for all purchases. Some Convention services may not be available at all locations due to technical restrictions or limitations of systems, facilities or equipment. The prices listed in this Rate Guide are applicable where facilities are available. Some products and services may require that equipment be purchased at an additional charge to the customer.

Voice Services

Network of *Possibilities*

Convention Bundled Voice Package (1 Line)

The Convention Bundled Voice Package includes the following components:

Business Line	Business Line Service is a local telephone service that handles routine business telecommunications applications, including incoming/outgoing calls and faxes. Business Lines allow you to conduct your basic business functions with confidence.
Unlimited Local and Long Distance	Unlimited Local & Long Distance for Business is a bundled-approach to offering communications products and services that provides low, flat rates for all of your direct-dialed local and nationwide long distance calls.
Toll Free (Optional)	Called party pays for calls through an 8XX number. Long distance service is required.
1-Line Handset	Basic telephone function maintained without AC power. New call indicator, flashing LED and new call counter.

Pricing

Product	Convention Rates	Move, Change, Cancel Fee
1 local line and 1-line handset – (Unlimited Local and Long Distance). Select any of the feature options below: <ul style="list-style-type: none">• Business voicemail• Remote Access Forwarding• Call Waiting• Call ID Name & Number• Three-way calling• Hunting• Call Forwarding• Toll Free Blocking	\$195.00	\$100.00
Toll Free (Optional)	\$42.00 per toll-free line + usage (\$0.06 per minute)	\$100.00

Special Considerations: Additional Terms and Conditions

Please refer to AT&T North Carolina General Exchange Guidebook, including Section A3.45 online at: <http://cpr.att.com/pdf/nc/g003.pdf>

Convention Bundled Voice Package (2 Lines)

The Convention Bundled Voice Package includes the following components:

- Business Lines** Business line service is a local telephone service that handles routine business telecommunications applications, including incoming/outgoing calls and faxes. Business lines allow you to conduct your basic business functions with confidence.
- Unlimited Local and Long Distance** Unlimited local & long distance for business is a bundled-approach to offering communications products and services that provides low, flat rates for all of your direct-dialed local and nationwide long distance calls.
- Toll Free (Optional)** Called party pays for calls through an 8XX number. Long distance service is required.
- 2-Line Handset** Basic telephone function maintained without AC power. New call indicator, flashing LED and new call counter.

Pricing

Long Distance Options: Voice, Data, Toll Free, International

Long Distance Voice	Provides for unlimited long distance for direct-dialed local and nationwide long distance calls.
Data Long Distance	ISDN BRI and PRI listed in the “Data” section are compatible with Data Long Distance service. Data Long Distance provides connectivity to the public switched telephone network and/or direct connectivity to an AT&T carrier network.
Toll Free	Called party pays for calls through an 8XX number. Long Distance Service is required.
International Long Distance	International rates associated with Voice Long Distance and international rates associated with Data Long Distance are not necessarily the same. Many international rates are subject to repeated changes; contact AT&T for the applicable rate on a country by country basis. Please reference the following link for a list of International Long Distance pricing per country: www.att.com/dnc . To utilize these rates you must order this service and use the AT&T PIC –(Primary Interexchange Carrier) (0377) for Long Distance.

Pricing

Product	Convention Rates
Unlimited Voice Long Distance (Voice Line only)	\$20.00 per business line (Local service must be with AT&T)
Data Long Distance (BRI/PRI)	\$35.00 + usage (\$0.055 per minute)
Toll Free	\$42.00 per Toll Free + usage (\$0.06 per minute)
International Long Distance	\$60.00 + usage – Please see the following link for a list of rates by country: www.att.com/dnc

Special Considerations: Additional Terms and Conditions

A \$500.00 refundable deposit will apply for all Long Distance Options. For more information on our long distance voice services, please see the AT&T Service Guide at the following link:
http://serviceguidenew.att.com/apex/sg_landingpage?tgtPg=sg_flashplayerpage&testid=068C0000000UyftIAC

Voice and Data Services

Network of *Possibilities*

ISDN BRI

Integrated Services Digital Network (ISDN) Basic Rate Interface (BRI) is a digital communications technology that transmits data and voice traffic simultaneously over one line and among multiple sites. ISDN BRI uses copper telephone lines as a low-cost way to send voice and data at the same time—with digital clarity, speed, and reliability—over the AT&T digital network.

ISDN BRI facilitates the use of high-bandwidth applications such as videoconferencing through dynamic channel transmission. Your hardware may be able to multiplex, or "bond," two ISDN channels to double transmission capacity.

Pricing

Product	Convention Rate	Move, Change, Cancel Fee
ISDN Single Line Service	\$365.00	\$100.00

Special Considerations: Additional Terms and Conditions

Please refer to AT&T North Carolina Publications, including General Exchange Guidebook, Section A42.3, available online at http://cpr.bellsouth.com/pdf/nc/product_line.htm.

ISDN PRI

Integrated Services Digital Network Primary Rate Interface (ISDN PRI) is a complex voice and data service that provides high-volume access to the public switched telephone network (PSTN). This service lets you transmit data at high speeds to accommodate voice, data, image, and video over the same digital facilities. ISDN PRI provides 23 digital channels over one transport line (a 24th channel carries signaling information.) This service offers you one T1 circuit with 23 separate voice lines or a combination of services.

Direct Inward Dialing (DID)

Direct Inward Dialing is a phone system calling feature that allows you to control whether incoming calls are routed directly or through an attendant. DID lets callers reach your employees directly, bypassing the switchboard operator and allowing faster connections.

Pricing

Product	Convention Rate	Move, Change, Cancel Fee
ISDN Single Line Service	\$1,715.00*	\$100.00
Additional block of 20 DID numbers	\$30.00	N/A

*Includes a block of 20 DID numbers.

Special Considerations: Additional Terms and Conditions

Please refer to AT&T North Carolina Publications, including General Exchange Guidebook, Section A42.3, available online at http://cpr.bellsouth.com/pdf/nc/product_line.htm.

Data Services

A large graphic featuring a colorful, low-poly sphere on the right side, composed of various colored triangles (yellow, orange, red, purple, blue, green). White, glowing arcs and dots connect different points on the sphere and extend into the background, creating a network-like structure. The text "Network of Possibilities" is overlaid on the left side of the sphere.

Network of *Possibilities*

T1 Point-to-Point Private Line

Private Line service is a dedicated service between two or more locations and is available 24x7 at a flat rate.

AT&T Private Line service is a digital network service that provides the transmission path for private digital data lines and supports full-duplex, point-to-point and multipoint configurations. Service channels are provided between the customer-designated premises. Private lines are point-to-point circuits dedicated for the exclusive use of a customer. These lines are offered intraexchange, interexchange-intraLATA, or interstate-intraLATA.

Pricing

Product	Convention Rate	Move, Change, Cancel Fee
Access Connection (2)	\$405.00	\$500.00
Inter-office Channel (500 miles) ¹	\$189.00	
Total	Your AT&T Service Representative will calculate the total.	

Special Considerations: Additional Terms and Conditions

For more information on our data services, please see the service guide at the following link:

http://new.serviceguide.att.com/portals/sgportal.portal?_nfpb=true&_pageLabel=bandwidth_page

¹ Charge applies every 500 miles.

T3 Point-to-Point Private Line

T3 Service provides two-way, simultaneous, terrestrial, point-to-point, dedicated transmission at 45 MB. This capacity is equivalent to 28 DS1 (1.5-MB) or 672 DS0 (64-Kbps) circuits. The service uses a framed DS3 signal format and is available over AT&T's vast fiber optic facilities. Service channels are provided between the customer-designated premises.

T3 Point-to-Point Private Line service with its higher data transfer rate supports high-speed, computer-to-computer applications, LAN to WAN connectivity and is capable of providing broadcast-quality television service.

T3 Point-to-Point Private Line service is provided over SONET, FT3C, FTX-180, and FT Series G terrestrial lightwave systems. The particular route a circuit takes and the availability of facilities on that route determine the choice of facilities.

Pricing

Product	Convention Rates	Move, Change, Cancel Fee
Access Connection (2)	\$5,087.00	\$500.00
Inter-office Channel (300 miles) ²	\$1,400.00	
Per Mile Charge	\$1.68	
Total	AT&T Service Representative will calculate the total.	

Special Considerations: Additional Terms and Conditions

For more information on our data services, please see the service guide at the following link:

http://new.serviceguide.att.com/portals/sgportal.portal?_nfpb=true&_pageLabel=bandwidth_page

² Charge applies every 300 miles.

Metro Ethernet

Metro Ethernet service delivers a highly efficient, cost-effective broadband solution for transporting critical information (data, voice or video) between multiple locations in a metropolitan area. Metro Ethernet Service is a layer 2 Ethernet networking service that provides a standard Ethernet port (physical connections) to each specified location, and allows multiple ports to be connected as if on the same LAN.

Service will be offered under this guide at the speeds and prices specified below.

Multiple ports may be ordered and connected in a point to point or multipoint arrangement. Orders must specify the interface type required; choices include 100BaseT (for 100 MB or below service) or 1 GB single or multimode fiber (for any speed shown).

Pricing

Product	Convention Rates	Move, Change, Cancel Fee
10 MB Ethernet	\$2,085.00	\$500.00
100 MB Ethernet	\$3,750.00	\$500.00
500 MB Ethernet	\$5,490.00	AT&T will not move, change, or cancel 500 MB & 1 GB circuits after they are installed.
1000 MB (1 GB) Ethernet	\$8,740.00	

Special Considerations

AT&T is providing a customized version of its Metro Ethernet Service for this convention. The rates quoted above are not generally offered on a month-to-month or temporary service arrangement. The service provided under this Rate Guide will be functionally equivalent but may vary from what is described for the Metro Ethernet Service described in the AT&T North Carolina State Exchange Guidebook which is accessible via this link: <http://cpr.bellsouth.com/guidebook/is/0005-0004.pdf>

Internet Access

Network of *Possibilities*

Managed Internet Service

Managed Internet Service (MIS) is an Internet access service that combines a high-speed, dedicated connection with consolidated application management. It allows you to reliably access information, resources and communicate with Internet users worldwide. MIS includes proactive, 24x7 network monitoring, enhanced network security features, and maintenance of the communications link between your locations and the AT&T network.

The following choices are available with Managed Internet Service:

- 10 MB Ethernet Access Managed Internet Service (Ethernet)
- 100 MB Ethernet Access Managed Internet Service (Ethernet)
- 500 MB Ethernet Access Managed Internet Service (Ethernet)
- 1,000 MB (1 GB) Ethernet Access Managed Internet Service (Ethernet)

MB = Megabits, GB = Gigabits

AT&T will provide a RJ45 Interface jack for (10 MB, and 100 MB service) and a fiber optic SC/PC connector for each 1 GB service. AT&T does not provide any hardware or cabling beyond the jack.

AT&T will offer Ethernet Patch Cables for purchase at the AT&T Concierge Service area in the DNC Complex.

If you require a router, you will need to order from the AT&T Equipment section. Routers are not automatically provided. Customers can provide their own routers.

Pricing

Product	Convention Rates	Move, Change, Cancel Fee
10 MB Ethernet	\$1,495.00	\$500.00
100 MB Ethernet	\$6,165.00	\$500.00
500 MB Ethernet	\$19,602.00	AT&T will not move, change, or cancel 500 MB & 1 GB circuits after they are installed.
1000 MB (1 GB) Ethernet	\$32,025.00	

Special Considerations: Additional Terms and Conditions

For more information on our Internet Access Services and AT&T's Acceptable Use Policy (AUP), please see the service guide at the following links:

http://new.serviceguide.att.com/portals/sgportal.portal?_nfpb=true&_pageLabel=bandwidth_page and at <http://www.att.com/aup>.

Broadcast Video

Network of *Possibilities*

HDVT – High Definition Video Transport

(HDVT) AT&T High Definition Video Transport service is a point-to-point, one-way transmission of several digital video signal options up to 1.5G. HDVT supports the following interfaces:

- SMPTE 292M
- SMPTE 310M
- SMPTE 259M
- SMPTE 305M
- DVB-ASI.

HDVT transmits raw uncompressed HD content and is available on either a transmit or receive basis.

Pricing

Product	Convention Rate	Move, Change, Cancel Fee
HDVT	\$4,500.00	\$500.00

Special Considerations: Additional Terms and Conditions

For more information on our video services, please see the service guide at the following link: <http://cpr.bellsouth.com/pdf/is/index.html#section1>.

All of our broadcast circuits are point to point and unidirectional.

SCVS - Serial Component Video Service

AT&T Serial Component Video Service is a standard based 270 MB digital video transport service for the limited purpose of providing one-way transport of high quality digital video signals and audio signals.

AT&T SCVS supports the following network standard formats:

- Serial Digital Interface (SDI) – ANSI/Society of Motion Picture and Television Engineers (SMPTE) 259M; Audio embedding of either four analog audio channels at 20 KHz or two AES-EBU digital audio channels is available from the Company.
- Serial Data Transport Interface (SDTI) SMPTE 305M.
- Digital Video Broadcasting-Asynchronous Serial Interface (DVB-ASI)

Pricing

Product	Convention Rate	Move, Change, Cancel Fee
SCVS	\$1,600.00	\$500.00

Special Considerations: Additional Terms and Conditions

For more information on our video services, please see the service guide at the following link: <http://cpr.bellsouth.com/pdf/is/index.html#section1>.

All of our broadcast circuits are point to point and unidirectional.

Global Video Service

Global Video Services offers a host of full motion long distance video transport features that deliver high quality video images and high quality audio. AT&T Global Video Service is provided over a fiber-optic network.

Pricing

Product	Convention Rates	Move, Change, Cancel Fee
JPEG HD-SDI (up to 250 MB and up to 4 groups of audio)		
TOTAL SERVICE "DNC Complex" to Customer's Premise (All access included)	\$10,000.00	\$500.00
BASELINE SERVICE- "DNC Complex" Access and IOC ³	\$9,000.00	\$500.00
ASI & JPEG SDI (1MB - 148 MB)		
TOTAL SERVICE "DNC Complex" to Customer's Premise (All access included)	\$ 7,500.00	\$500.00
BASELINE SERVICE- "DNC Complex" Access and IOC ⁴	\$ 6,500.00	\$500.00

Special Considerations: Additional Terms and Conditions

For more information on our video services, please see the service guide at the following link: http://www.corp.att.com/abs/serviceguide/internet_services.html

All of our broadcast circuits are point to point and unidirectional.

³ Baseline Service excludes access to customer's location.

⁴ Baseline Service excludes access to customer's location.

Telephone Handsets

Network of *Possibilities*

Telephone Handsets

Two options are available for purchase:

- **One-Line Corded Phone** – basic telephone function maintained without AC power. New call indicator, flashing LED and new call counter.
- **Two-Line Corded Phone** – basic telephone function requiring AC power. LED light indicating new call.

Pricing

Product	Convention Rate
One-Line Corded Phone	\$47.00
Two-Line Corded Phone	\$195.00

Special Considerations: Additional Terms and Conditions

- The two-line corded phone requires AC power.
- Telephone handset delivery may involve an added, separate charge.
- AT&T will not offer any refund, return or exchange; customers will keep all handsets following the convention.
- AT&T is not involved in the manufacture of any handsets.
- Each telephone handset is sold “as is”; AT&T offers no warranty or return privilege.

Router, Firewall and Switch Devices

Network of *Possibilities*

Router, Firewall, and Switch Devices

Cisco Routers, Firewalls, and Switches are available will be available for purchase. Once purchased these items become property of the customer.

Cisco Firewall - Cisco ASA 5505 Base/ Security Plus Capable of handling up to 150 MB Firewall throughput.

Cisco 1921 Router The Cisco 1900 Series enables deployment in high-speed WAN environments up to 15 Mbps.

Cisco 3925 Router The Cisco 3900 Series offers embedded hardware encryption acceleration, voice- and video-capable DSP slots, optional firewall, intrusion prevention, call processing, voicemail, and application services. In addition, the platforms support the industry's widest range of wired and wireless connectivity options such as T1/E1, T3/E3, xDSL, copper, and fiber Gigabit Ethernet.

Cisco Catalyst 2960 Series Switches (customer chooses port count) The Cisco Catalyst 2960 Series Switches are the leading Layer 2 edge switches, providing improved operational performance, highly secure business operations, improved sustainability, and an enhanced workspace experience. They are fixed-configuration access switches designed for enterprise customers.

- Catalyst 2960 24 Port 10/100 + 2 T/SFP
- Catalyst 2960 48 Port 10/100 + 2 T/SFP
- Catalyst 2960 8 Port 10/100/1000 + 1 T/SFP
- Cisco GLC-T (daisy chain/ mini-gbic)

Pricing

Product	Convention Rate	Installation
Cisco ASA 5505	\$2,506.00	Included in the convention rate, but additional charges may apply.
Cisco 1921	\$1,879.00	
Cisco 3925	\$14,650.00	
Cisco 2960 (24 port)	\$1,282.00	
Cisco 2960 (48 port)	\$1,835.00	
Cisco 2960 (8 port)	\$1,999.00	
Cisco GLC-T (daisy chain/ mini-gbic)*	\$415.00	

***End user needs a CAT6 patch cable to connect multiple switches.**

Special Considerations: Additional Terms and Conditions

- Additional terms applicable to the purchase of equipment, installation, and maintenance are found in the Pricing Schedule located at: www.att.com/dnc
- AT&T will not offer any refund, return or exchange; customers will keep all equipment following the Convention.
- AT&T is not involved in the manufacture of any equipment.
- 1 year AMS – AT&T Maintenance Solutions is included as part of the Convention Rate for the above firewall, routers, and switches. The Cisco GLC-T does not apply for maintenance support.

Professional Services

Network of *Possibilities*

Professional Services

Professional services are available upon request.

Site Survey & Design The AT&T network team is able to provide a site survey and design layout of potential network elements that suit a customer's needs.

Network Security Network security solutions may include Custom Managed Firewall Services—24x7 monitoring and management of customer-owned equipment.

Special Construction Services including additional inside premises wiring for voice and local area networks may require special construction. AT&T can also provide installation of cabling systems related to AT&T services ordered. We will also review custom cabling jobs on an individual case basis.

Scenario Diagrams

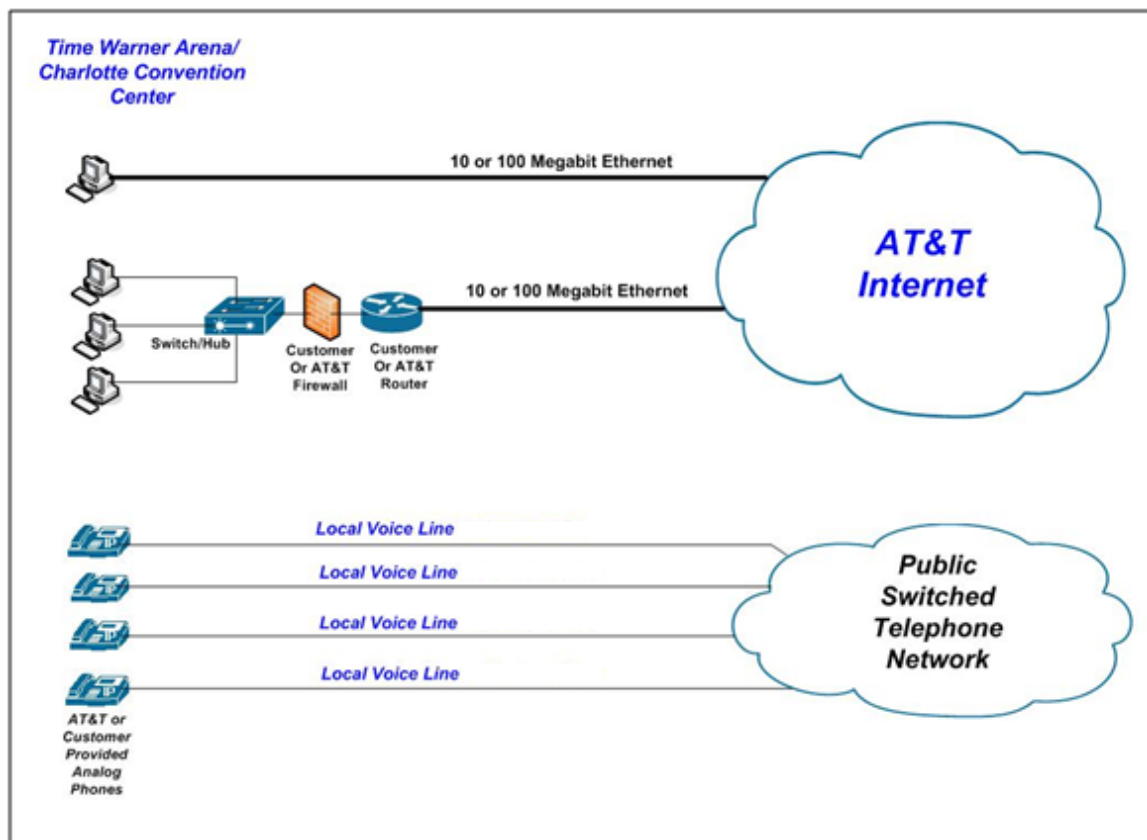

A graphic featuring a colorful, low-poly sphere on the right side, composed of various colored triangles (yellow, orange, red, purple, blue, green). White, glowing arcs and dots connect different points on and around the sphere, suggesting a network or data flow. The background is a light, hazy gradient.
